***The Space Wellness Center – Sound Healing Meditation**

Wednesday, April 10, 3:00 – 4:00 pm

Join The Space Healing Sanctuary for this 60 minute free introductory Sound Healing Meditation. Sound healing is a powerful modality that promotes wellness and assists healing with anxiety, stress, pain, clarity, memory, immunity, creativity, and more. Everything in the known universe is vibrating at various frequencies. We are not only surrounded by these frequency emitting sounds, but we create our very own frequencies. With guided meditation and healing through the use of overtone emitting instruments like gongs, bowls, bells and chimes, we can allow our mind, body and spirit to cultivate a sense of relaxation and rejuvenation.

This deep relaxation can encourage altered states of consciousness and help us move the blockages associated with trauma, anxiety, stress, and negative emotions while promoting clarity, mindfulness and concentration. Sound can allow for healing physically, emotionally, and spiritually and help us return to our true nature.

On April 15, 1874, two weeks before the start of the official Paris Salon, a group of young artists, later known as the Impressionists, independently presented their works for the first time. The public was shocked.

What made this new vision so exasperating to the society of the Belle Époque?

Step into the dazzling colors of the Impressionist world with Dominique. Dominique graduated from the École du Louvre in Paris studying art history and museology and was an Art Lecturer of the French National Museums before moving to the United States where she began her teaching career.

***Strength Training for Women**

Tuesdays, April 2 to April 30, 4:00 – 5:00pm

If you've never lifted weights in your life – and many people haven't - why should you start now? The answer is simple: Muscle tissue, bone density and strength all decrease over the years. These changes open the door to injuries and accidents that can compromise your ability to lead an independent and active life. Strength training can play a huge role in slowing bone loss and is one of the most effective ways reverse much of this decline.

Come join us for an hour of targeted exercise where we will focus on making our bodies stronger as well as emphasizing the importance of maintaining and improving our balance. Studies attest that strength training can help you manage and sometimes prevent conditions such as heart disease, diabetes, arthritis and osteoporosis. It can also protect vitality and make everyday tasks more manageable.

Wear comfortable clothes and bring a yoga mat or beach towel, water and your weights. Please start with your lightest weights (2-3 lbs.).

One Time Class Fee of \$20.00, payable to instructor at the beginning of your first class
